

Usman Manzoor

Senior Software Engineer at SUMICO Technologies Pvt

03334492486 @ usmanjutt143@hotmail.com Lahore, Pakistan

Profile

I believe hard work is key to success. Being a believer in this phrase, I want to be an important part of an organization through my hard work so that I may explore my abilities and knowledge I got during that time. I can demonstrate a strong ability to manage projects from conception through to successful completion.

Projects

Asset Reliability Tracker (ART)

October 2020 - Present

<http://202.163.76.244:3030/Account/SignIn>

Tools: ASP .NET, MVC, Angular, Crystal Reports, SQL Server, LINQ

Asset Reliability Tracker (ART) maintains equipment histories against time by declaring each asset in the Green, Yellow and Red zone, as per criteria. Equipment Timeline is maintained to keep track of activities and also tracking their feedback side-by-side.

Features:

- Equipment History Charts
- Technical Observations Sheets
- Equipment Maintenance and Feedback Timeline
- Criticality Index
- Failure Mode Identification

Asset Configuration Management (ACM)

October 2020 - Present

Tools: ASP .NET, MVC, Angular, Crystal Reports, SQL Server, LINQ

Create as many assets as you like w.r.t 05 functional locations by either manual input or using a standardized excel template. Detailed information of equipment is incorporated to ease searching assets based on different inputs. Also, each asset is uniquely defined by its visual records (pictures) and bar code which helps to identify assets through different stages.

Non Formal Education Management Information System(NFEMIS)

March 2019 - Present

Tools: ASP .NET, MVC, Angular, Crystal Reports, SQL Server, LINQ

Non Formal Education Management Information System is a software application for a **Japan-based organization** JIQA-AQAL for the Administration, Documentation, Tracking, Monitoring, Assessment, Reporting, and Delivery of educational courses, training programs, or learning and development programs

Enterprise Resource Planning

March 2018 - March 2019

Q-Tech Solutions

Tools: ASP .NET, MVC, Angular, Crystal Reports, SQL Server, LINQ

Enterprise Resource Planning (ERP) is a business process management software that allows an organization to use a system of integrated applications to manage the business and automate many back-office functions related to technology, services, and human resources.

Work Execution Management (WEM)

Tools: ASP .NET, MVC, Angular, Crystal Reports, SQL Server, LINQ

Work Order Management (WOM) allows facilities to effectively track and manage all work orders. **WOM** helps process work requests, plan resources, track available parts, organize scheduled job information, and much more. CMIS can create work orders, updating requests, and track the work order completion process. It is developed using Asp.net MVC.

Features:

Generate Work Orders for Scheduled Maintenance, Breakdown Maintenance, Repair, and upgrade jobs, etc. from equipment tree or work order module.

Different user roles are responsible for approving, scheduling, executing, and closing the work orders.

Search work orders from a list format or using different filters based on location, notification type, work order type, assigned supervisors, or technicians.

Work Order Management (WOM) linked with Inventory Management System (IMS) for automatically consuming the spares from inventory.

Track parts, labor, and services cost for each work order.

From work orders, calculate different maintenance matrices e.g. Mean Time Between Notification (MTBN), Mean Time to Diagnose (MTTD), Mean Time to Repair (MTTR) and Mean Time between Failures (MTBF).

Generate custom reports in detailed and summary formats.

Tools: ASP .NET, MVC, Angular, Crystal Reports, SQL Server

A Dry Cleaning and laundry services company based in the United Kingdom

Learning Management System

Local Product

Tools: ASP .NET, MVC, Angular, Crystal Reports, SQL Server

Learning Management System is a software application for the administration, documentation, tracking, reporting, and delivery of educational courses, training programs, or learning and development programs.
