

Annual Performance Review FY 2023-24 for Samiullah

Guidelines

Employees:

1. Plan and note what you want to address.
2. Review the previous list of objectives.
3. Collect data to support your performance.
4. Identify areas where you feel you lack and need further coaching or extra resources.
5. By the end of the dialogue, you should have a list of actionable items aimed at improving performance.

Managers:

1. Effective Performance Dialogue must be:
 - Targeted
 - Fact-Based
 - Constructive and challenging
 - Action-oriented
2. Tailor tone and connect to suit employee receptiveness
3. Use dialogue to set the expectation, clarify accountabilities and gain commitment
4. Get input from other line managers on employee performance

Employee Information

First Name	Samiullah	Last Name	
Designation	Associate Full Stack Developer	Department	Information Technology
Joining Date	05/16/2023	LINE MANAGER	Muhammad Adil Hassan

Training of AMS and Payment processes in BSS system with APIs integration with other systems to the (IT Development Team)

COMPLETED

Unit Target Stretched
Time Oct-23 Sep-23

Subject's Comments

I have completed training on AMS and payment processes in detail, during which I learned the following processes:

1. AMS Tables Structure
2. AMS Tables Flags Details
3. AMS Stored Procedure
4. AMS Functions and Triggers

The BSS-Payment Structure process below mentioned

1. Appendix Components and Appendix creation process
 1. Schemes
 2. TSPs
 3. Classes
 4. Trainers

2. Final Approval of Appendix Document

After the final approval, the workflow splits into three parallel paths:

1.Regular Invoices Path:

1. Monthly Progress Report (MPR)
2. Payment Recommendation Note PRN(Regular)
3. Invoices Generation
4. Posting into SAP

2.Completion Path:

1. Examination Results Updating
2. Payment Recommendation Note (Completion)
3. Completion Invoice Generation
4. Posting to SAP

3. Employment Path:

1. Employment Verification
2. Payment Recommendation Note (Employment)
3. Employment Invoice Generation
4. Posting to SAP

Each path involves generating specific payment recommendation notes and invoices.

Objective Details

Objective Name	Training of AMS and Payment processes in BSS system with APIs integration with other systems to the (IT Development Team)	Metric/Target	Unit Target Stretched Time Oct-23 Sep-23
Weight	15.0%	Start Date	07/01/2023
Due Date	10/31/2023	% Complete	0.0%
Status	COMPLETED		

Other Details**Milestones**

Target Date	10/31/2023	Milestone	AMS System Process Overview with detailed understanding of API integration details
Actual Date			
Target Date	10/31/2023	Milestone	Complete Payment Process Structure of (PO,MPR,PRN,SRN,Invoices) with the understanding of Operational issues
Actual Date			
Target Date	10/31/2023	Milestone	Training checklist of AMS and Payment Processes Sign-off
Actual Date

Other Details

Milestones

Target Date	03/31/2024	Milestone	Update of the PSDF Business Continuity Plan (BCP) for test server
-------------	------------	-----------	---

Actual Date

Target Date 03/31/2024

Milestone

Provision of PSDF applications checklist for its components and sub-components including Store procedure ,table,jobs to be replicated from PR to DR

Actual Date

Target Date 03/31/2024

Milestone

Development of the DR plan along with the detailed steps to be performed for the PSDF Databases and Environment from PR to DR

Actual Date

Target Date 03/31/2024

Milestone

Execution of the DR plan according to the steps and ensure successful replication of the Databases and environment

Actual Date

Target Date 03/31/2024

Milestone

Ensure all changes in the Databases and its components including source code and data is replicated on DR.

Actual Date

Target Date 03/31/2024

Milestone

Maintain and update the changes documentation performed on the DR site with logs details.

Revamping of DVV system and its Solution Finalization

ON TRACK

Unit Target Stretched
Time Apr-24 Feb-24

Subject's Comments

1. I provided the best solution to optimize the DVV API.
2. I developed an API that delivers all necessary data in one go.
3. This optimization reduces the system load and improves efficiency.
4. Now, I am hands-on in creating DVV API, which sends requests by outsourced.

Objective Details

Objective Name	Revamping of DVV system and its Solution Finalization	Metric/Target	Unit Target Stretched Time Apr-24 Feb-24
Weight	10.0%	Start Date	07/01/2023
Due Date	04/30/2024	% Complete	0.0%
Status	ON TRACK		

Other Details**Milestones**

Target Date	01/15/2024	Milestone	Understanding and development of detailed document of existing DVV system.
Actual Date			
Target Date	01/31/2024	Milestone	Analysis and recommendation of the existing DVV system and identification of bottlenecks with optimization plan
Actual Date			
Target Date	02/15/2024	Milestone	Propose development for the optimization plan from LM/HOD
Actual Date			
Target Date	04/30/2024	Milestone	Development kick-off for the approved new solution as per plan
Actual Date			
Target Date	04/30/2024	Milestone	Finalize the document and integration with Existing System including APIs and new devices

Upgradations in SAP/BSS to improve TATs & System Capability for Skills Scholarship Program

ON TRACK

Unit Target Stretched
Time May-24 Mar-24**Subject's Comments**

During development of the Skills Scholarship program, I completed the following **Soft Skills Activities**:

1. Defined Goals and Objectives
2. Conducted Business Requirements Gathering
3. Performed Requirement Implementation Feasibility Study
4. Check Data Flow Diagrams (DFD)
5. Created Use Case Scenarios
6. Designed Database Structure
7. Developed SSP Database Objects (Tables, Stored Procedures)
8. Implemented SSP .NET Core Framework
9. Developed SSP Front End Via Angular
10. Implemented User Rights
11. Managed Instance Patches
12. Ensured Governance and Compliance
13. Promoted Training Initiatives
14. Monitored and Improved Processes during Testing Phase
15. Helped Mr. Umair and Mr. Rao Ali Haider to improve code optimization and implement best practices in trainee portal database design.

During development of the Skills Scholarship program, I completed the following Modules**1.TSP Authentication and Authorization Process:**

1. Sign-Up Process
2. Sign-In Process
3. OTP Process

2.TSP Profile Management Process:

1. Built TSP Profiles
2. Enabled TSPs to Create Their Contact Person Profiles
3. Enabled TSPs to Create Their Training Locations
4. Allowed TSPs to Add Training Certificates
5. Facilitated Management of Trade and Certificates
6. Allowed TSPs to Add Their Trainer Profiles
7. Managed Details About TSPs' Banks
8. Handled Payments for Registered Training Locations
9. Create mechanism for TSP Registration Evaluation with email Notification Facility

3.Annual Program Management

1. Calculate CTM
2. Create Annual Program
3. Create Trade Plan with corresponding Trade Layer
4. Create Program Initiate Process with Approval Hierarchy
5. Create mechanism for process status update
6. Create mechanism for workflow attachment

7. Create Analysis and Historical Report

4.TSP Association Management

- 1. Initiate Association
- 2. TSP Association Submission
- 3. Association Evaluation
- 4. TSP Assignment

5.Workflow Management

- 1. Create workflow

6.Criteria Management

- 1.Create Criteria Template

7.Payment Management

- 2. Registration Payment
- 3. Association Payment

Front end Code Optimization of BSS Application with Commenting

ON TRACK

Subject's Comments

- 1. Developed an automatic reporting mechanism where a single change in the stored procedure automatically reflects in the report without requiring changes in the .NET model, service, controller, Angular model, service, HTML, or TypeScript files. This solution reduces hours of work in minutes, making it highly effective for reporting.
- 2. Developed a unified mechanism for creating different types of forms.
- 3. Optimized and developed multiple drop-down option extension codes.
- 4. Debugged a dual trainee issue that had been pending for the previous two years.
- 5. Created an automatic export option for reports.

Objective Details

Objective Name	Front end Code Optimization of BSS Application with Commenting	Metric/Target	
Weight	10.0%	Start Date	07/01/2023
Due Date	06/30/2024	% Complete	0.0%

Evaluation based on Values (20.0%)

This section is for evaluating the behaviors of the values.

Each value should have a rating and comments before moving on to the next section.

Result Driven

20% of total score

- We keep trying till we get results
- We take ownership for all our actions

Subject's Comments

Result-driven accomplishment: Created an automatic reporting mechanism, which reduced manual reporting time by 50%. Demonstrated strong commitment and time management by working extra hours and successfully delivering the project on time.

Developed an automatic reporting mechanism where a single change in the stored procedure automatically reflects in the report without requiring changes in the

Dot NET model,

service,

controller,

Angular model, service,

HTML, or TypeScript files.

This solution reduces hours of work in minutes, making it highly effective for reporting.

Innovation

20% of total score

- We welcome new ways of doing things and push for their execution
- We do not hesitate from taking calculated risks

Subject's Comments

Innovation Achievement:

1. Introduced a new method for creating front-end and back-end code, and implemented innovative enhancements in trainee database design.

2. Developed an automatic reporting mechanism that allows modification of report data without requiring changes to the front-end or back-end code

Striving for Excellence

20% of total score

- We anticipate challenges to continuous improvements and proactively solve them
- We actively seek and share information and insights with our colleagues

Subject's Comments

I introduced a new method for creating data reports and a new approach for data export options.

I shared with colleagues how to optimize our front-end and back-end code using best practices, including the DRY (Don't Repeat Yourself) principle.

One Team

20% of total score

- We give and get honest feedback
- We proactively support each other to solve challenges

Subject's Comments

I supported colleagues in solving challenges.

During SSP development, I collaborated with procurement, program design, finance, and other IT team members as a one team.

Respect and Fairness

20% of total score

- We make merit and performance the basis of every action we take
- We treat everyone just as we want to be treated by others

Subject's Comments

During SSP development, I worked with procurement, program design, finance, and other IT team members with respect and fairness, especially during requirement gathering and user feedback sessions.

Improvement area for training

Functional training:	Performance Management
Soft Skills training:	Leadership

Employee Overall Comments:

Additional Comments:

1. Successfully implemented an automatic reporting mechanism that reduced manual reporting time by 50%, demonstrating strong commitment and effective time management. This solution streamlined the process by ensuring that changes in stored procedures automatically update reports without altering Dot NET models, services, controllers, Angular components, HTML, or TypeScript files.
2. Additionally, introduced innovative methods in front-end and back-end code creation and enhanced trainee database design.
3. Collaborated with colleagues to optimize code practices and supported team members in overcoming challenges during SSP development, fostering a respectful and fair work environment
